

California Infrastructure and
Economic Development Bank

2015-2016

Annual Activity Report

This report is also available
online at www.ibank.ca.gov

MESSAGE FROM THE EXECUTIVE DIRECTOR

November 1, 2016

Governor Edmund G. Brown Jr.
Members of the California State Legislature
State Capitol Building
Sacramento, CA 95814

Dear Governor Brown, Senators and Assembly Members:

The California Infrastructure and Economic Development Bank (IBank) has provided vital financing to governmental entities and small businesses in the past year to be responsive to the infrastructure and economic development needs of California's counties, cities, and communities, including addressing retrofits to existing roads and facilities and new construction and supporting the growing financing needs of small business. IBank's programs include the Infrastructure State Revolving Fund (ISRF) Program, the Bond Program, the California Lending for Energy and Environmental Needs (CLEEN) Center, and the Small Business Finance Center (SBFC).

Among IBank's accomplishments in this Annual Activity Report, you will find nearly **\$1.2 billion** worth of financing – utilizing low-cost, long-term bonds and other financings for public agencies, public benefit nonprofit organizations and manufacturing and processing companies. Projects spanned a variety of purposes and places, including a financing to build a new City and Town Hall complex in Del Mar, issuing Green Bonds to finance a portion of the State Water Board's Clean Water State Revolving Fund Program to provide financial assistance to local governments for water pollution control projects, and providing funding to replace the iconic Sails Pavilion at the San Diego Convention Center. In addition, IBank's Board of Directors (Board) approved the first California Lending for Energy and Environmental Needs (CLEEN) Center LED project to help meet the State's goal to reduce greenhouse gas emissions. The Board also approved the issuance of a record amount of bonds to continue to fund future ISRF projects.

Here are some of the highlights from the IBank Annual Activity Report for fiscal year 2015-2016:

- On August 25, 2015, the IBank Board approved criteria, priorities and guidelines to select and underwrite projects for financing under the California Lending for Energy and Environmental Needs (CLEEN) Center. IBank's CLEEN Center provides low-cost financing to eligible State and local governments, and public universities, schools, and hospitals. The approved eligible projects

include those with commercially proven technologies that are expected to result in carbon reduction benefits or other environmental benefits within the State, including energy efficiency, renewable energy, energy storage, alternative technologies, alternative fuels, transportation and water.

- On November 17, 2015, IBank’s Board approved its first CLEEN Center project – **\$7.7 million** for the City of Huntington Beach to purchase over 11,000 high-pressure sodium streetlights and retrofit them with new Light Emitting Diode (LED) technology. The anticipated annual energy savings is expected to be about 3.5 million kilowatt-hours the first year, helping the State meet its goals for reducing greenhouse gas emissions. The City estimates saving up to **\$14 million** over 20 years, freeing those funds to pay for other services.
- IBank successfully issued Infrastructure State Revolving Fund (ISRF) Bonds, Series 2016A (2016 Bonds), for **\$141.6 million**. The bond proceeds will support California communities by helping public agencies and non-profits sponsored by public agencies to build roads, city halls, fire stations, water treatment facilities, and a host of other projects. Issuance of the Bonds provided **\$171 million** to IBank to provide future low-cost, long-term financings for vital infrastructure projects. IBank sold the bonds at a premium, earning more than the par amount or face value, to build more roads, bridges, schools and other needed infrastructure.
- For the first time since IBank began issuing ISRF Revenue Bonds in 2004, Moody’s Investors Service (Moody’s) awarded its highest rating — “Aaa”—to the 2016A Bonds. In addition to awarding its “Aaa” rating to the 2016A Bonds, Moody’s upgraded IBank’s Series 2014A and Series 2015A Bonds to “Aaa”, from “Aa1”. Standard and Poor’s Rating Services (S&P) and Fitch Ratings (Fitch) each also awarded a “AAA” rating to the 2016A Bonds and affirmed their respective “AAA” rating on the 2014A and 2015A Bonds. The credit rating agencies (Rating Agencies) cited pool diversity, sound program management, financial policies, and market position, among other factors, as support for the ratings. All outstanding ISRF Revenue Bonds now have the top rating from each of the ‘Big Three’ Rating Agencies—Standard and Poor’s Rating Services (S&P) (“AAA”), Fitch Ratings (Fitch) (“AAA”), and Moody’s Investors Service (Moody’s) (“Aaa”).
- Approved **\$86.6 million** in Infrastructure State Revolving Fund (ISRF) Program financings to State and local governmental entities and local government-sponsored nonprofit organizations for infrastructure and economic expansion projects.
- Issued **\$502 million** of conduit revenue bonds for qualified 501(c)(3) nonprofit entities to create and retain jobs in the State, enhance the economic status of communities, facilitate research and cultural endeavors, and other public purposes.
- Issued **\$3.8 million** of conduit industrial development bonds (IDB) for a qualified California manufacturing company in the City of Sacramento to create and retain jobs in the State and enhance the local economy.
- Issued **\$410.7 million** of public agency revenue bonds (PARB) (Green Bonds). The proceeds will be used to provide financial assistance to local agencies under the State Water Board’s Clean Water State Revolving Fund Program. The program provides

low-cost financing for planning, designing, constructing and installing wastewater systems, as well as other water management services throughout the state. “Green Bonds” allow investors to invest directly in bonds that support environmentally beneficial projects.

Since the Assembly and Senate created IBank through the Bergeson-Peace Act in 1994, IBank has loaned, financed, or participated in the financing of **\$37.5 billion** of infrastructure and economic expansion projects, including **\$426.9 million** in industrial development bonds to help manufacturing and processing companies expand the State’s economy, and created or retained more than 55,000 jobs. We look forward to continuing to commit IBank resources as an integral economic stimulus tool in the areas of financing public infrastructure and private investments that promote economic development, create and retain jobs, and revitalize California’s communities.

Respectfully submitted,

A handwritten signature in blue ink that reads "Teveia Barnes". The signature is written in a cursive, flowing style.

Teveia R. Barnes
Executive Director

ABOUT IBANK

The Legislature created IBank in 1994 to finance public infrastructure and private development that promote a healthy climate for jobs, contribute to a strong economy, and improve the quality of life in California communities. IBank operates pursuant to the Bergeson-Peace Infrastructure and Economic Development Bank Act contained in California Government Code Sections 63000 et seq. IBank is a part of the Governor's Office of Business and Economic Development and is governed by a five-member Board of Directors: Panorea Avdis, Director of the Governor's Office of Business and Economic Development, Board Chair; John Chiang, State Treasurer; Brian P. Kelly, Secretary of the Transportation Agency; Michael Cohen, Director of the Department of Finance; and Peter Luchetti, Governor's Appointee.

As California's only general purpose financing authority, IBank has broad powers to issue tax-exempt and taxable revenue bonds, provide financing to public agencies, provide credit enhancements, acquire or lease facilities, and leverage State and Federal funds. IBank also helps small businesses through the loan guarantee programs and the farm loan program in the Small Business Finance Center. Descriptions of IBank's current programs:

Infrastructure State Revolving Fund (ISRF) Program – provides low-cost financing to public agencies and nonprofit organizations sponsored by public agencies for a wide variety of public infrastructure and economic development projects.

City Of Huntington Beach LED Streetlight Retrofit

California Lending for Energy and Environmental Needs (CLEEN) Center – provides direct public financing to Municipalities, Universities, Schools and Hospitals (MUSH borrowers) to help meet the State's goals for greenhouse gas reduction, water conservation and environmental preservation. Programs include:

- **Statewide Energy Efficiency Program (SWEET)** – finances projects that provide comprehensive efficiency improvements to new and existing facilities that save energy.
- **Light Emitting Diode (LED) Street Lighting Program** – finances the installation of LED street lights for MUSH borrowers as another energy efficiency strategy for the State.

Revenue Bond Financing (Bond) Program – provides tax-exempt and taxable conduit bond financing, including:

- **501(c)(3) Revenue Bonds** for eligible nonprofit public benefit corporations.
- **Industrial Development Revenue Bonds** for qualified manufacturing and processing companies.
- **Public Agency Revenue Bonds** for various state entities and programs.
- **Exempt Facility Revenue Bonds** for projects that are government-owned or consist of private improvements within public-owned facilities.

Modern-twist, silicone household products company

Small Business Finance Center – includes:

- **Small Business Loan Guarantee Program (SBGLP)**¹ provides up to 80% guarantees to lenders of loans to small businesses.
- **Farm Loans Program** provides direct loans to small farm businesses that are 90% guaranteed by the United States Department of Agriculture.

¹ Per Government Code 63089.98 not later than January 1 of each year, the program manager shall prepare and submit to the Governor and the Legislature a report for the preceding fiscal year ending June 30, containing the expansion fund and trust fund financial product activity of each Financial Development Corporation that administer guarantees under the SBLGP. Program activity for the SBLGP is not included in this Annual Activity Report.

This Annual Activity Report is submitted in accordance with Government Code Section 63035, which requires IBank to submit to the Governor and the Legislature a report of its activities for the preceding fiscal year. This Annual Activity Report includes:

- Information on the infrastructure bank fund, including, but not limited to, its present balance, moneys encumbered, moneys allocated, repayments, and other sources of revenues received during the fiscal year. This information is included in IBank's Comprehensive Annual Financial Report (CAFR) included herein as **Attachment 1**.
- Information on the impact of the activities funded by the infrastructure bank fund moneys, including, but not limited to, the number of jobs created and retained, the environmental impact that resulted, and economic value provided to the state (**Appendices 1 and 2**).
- A specification of conduit and revenue bonds issued and interest rates thereon, including, but not limited to, the use of the bond proceeds (**Appendix 3**).
- The amount of other public and private funds leveraged by the assistance provided (**Appendices 1, 2, and 3**).
- A report of revenues and expenditures for the preceding fiscal year, including all of the IBank's costs (**Attachment 1**). The information provided pursuant to this subdivision shall include, but is not limited to, the following:
 - The amount and source of total bank revenues. Revenues shall be shown by main categories of revenues, including the General Fund, special funds, federal funds, interest earnings, fees collected, and bond proceeds, for each bank program.
 - The amount and type of total bank expenditures. Expenditures shall be shown by major categories of expenditures, including loans provided, debt service payments, and program support costs, for each bank program.
 - A projection of IBank's needs and requirements for the coming year with recommendations for changes in State and Federal law necessary to meet the objectives of this division (**Page 8**).

SUMMARY OF IBANK ACTIVITIES DURING FISCAL YEAR 2015/2016

The table below summarizes the ISRF Program and CLEEN Center financings approved, the 501 (c)(3) Bonds, Industrial Development Bonds (IDBs), Public Agency Revenue Bonds (PARBs) and ISRF Program Revenue Bonds issued, and the leverage and projected employment impact for each.

ACTIVITIES RELATED TO INFRASTRUCTURE BANK PROGRAMS				
Program	Program Financings Approved/Conduit Bonds Issued	Expected Employment Impacts—Estimated Jobs ²	Financing Amount	Leverage
ISRF Program Financings	7	1,600	\$86,569,301	\$38,363,665
CLEEN Center Financings	1	6	\$7,692,425	\$1,076,924
Subtotal:	8	1,606	\$94,261,726	\$39,440,589
501 (c)(3) Bonds	15	802	\$501,997,000	\$13,279,108
Industrial Development Bonds (IDBs)	1	15	\$3,810,000	\$78,109
Public Agency Revenue Bonds (Green Bonds) (PARBs)	1	N/A	\$410,735,000	N/A
ISRF Program Revenue Bonds ³	1	N/A	\$141,600,000	N/A
Subtotal	18	817	\$1,058,142,000	\$13,357,217
Total Financings	26	2,423	\$1,152,403,726	\$52,797,806

² Combined total of construction, full-time, and part-time permanent jobs as reported by borrowers.

³ The ISRF Program is a “leveraged loan program,” which means IBank issues revenue bonds secured by the repayments received from approved ISRF Program Financings. IBank has issued six series of tax-exempt revenue bonds to provide additional funding for the ISRF Program. IBank issued revenue bonds in each 2004, 2005, 2008, 2014, 2015, and 2016, for a total of \$480,175,000 ISRF Program tax-exempt revenue bonds (ISRF Program Bonds), all committed to ISRF Program borrowers. ISRF Program Bonds are paid solely from repayments received from ISRF Program borrowers, and are neither backed nor guaranteed by either the State or other IBank funds.

NEEDS AND REQUIREMENTS FOR THE COMING YEAR WITH RECOMMENDATIONS FOR CHANGES IN STATE AND FEDERAL LAW

During the upcoming fiscal year, IBank will continue to work closely with the Governor’s Office of Business and Economic Development (GO-Biz) to develop strategic initiatives and programs that contribute to the Governor’s economic and environmental goals. Currently, IBank does not recommend any changes to State law. IBank does support proposed modifications to Federal tax law that would increase the availability of tax-exempt industrial development bonds in California.

LIST OF ATTACHMENT(S)

Attachment 1—California Infrastructure and Economic Development Bank Fund and California Infrastructure Guarantee Trust Fund, Enterprise Funds of the California Infrastructure and Economic Development Bank (A Component Unit of the State of California) Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2016 (CAFR)

APPENDIX 1—ISRF PROGRAM FINANCINGS APPROVED

Name of Borrower	Project Location	Interest Rate	Category and Project Description	Public Benefits (Including Expected Employment, Environmental Impact and Economic Value)	Approved Loan Amount	Leverage
Coastside County Water District	Half Moon Bay	3.44%	Water Treatment and Distribution Construct new pump station, install new pipelines, and replace or renovate existing pipelines.	Increase water quality and system capacity; improve reliability of the District’s water storage and distribution systems; reduce the District’s reliance on water from the San Francisco Public Utilities Commission; and significantly reduce water loss from the system. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 15	\$5,628,000	\$56,280
Pico Water District	Pico Rivera	3.84%	Water Treatment and Distribution Replace, install and upgrade pipes, valves and eight fire hydrants.	Increase system capacity, improve water flow, enhance water distribution, reduce the number of pipeline breaks and leakage, and decrease the pumping costs due to the installation of larger pipes. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 25	\$5,250,001	\$52,500
City of Santa Cruz	Santa Cruz	3.24%	Water Treatment and Distribution Replace, rehabilitate, and upgrade the water system within the City.	Enhance the City's distribution system by reducing the risk of seawater intrusion. Replace broken valves, thereby reducing emergency response services, improving water flow, storage quality, and meeting federal seismic standards. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 25	\$25,000,000	\$6,986,818

APPENDIX 1—ISRF PROGRAM FINANCINGS APPROVED

Name of Borrower	Project Location	Interest Rate	Category and Project Description	Public Benefits (Including Expected Employment, Environmental Impact and Economic Value)	Approved Loan Amount	Leverage
City of Del Mar	Del Mar	3.24%	Educational, Cultural and Social Construct City Hall, Town Hall, additional parking, indoor/outdoor breezeway, and Public Plaza.	Provide access to all City functions in one central location, increase capacity for council meetings, and ensure that the facility is seismically and compliant with the Americans with Disabilities Act. The Public Plaza will serve as an anchor for the southern end of the City’s downtown, encouraging foot traffic and increased investment by local businesses, eventually resulting in increased sales tax revenue. Estimated Permanent Jobs: 100 Estimated Construction Jobs: 50	\$16,161,000	\$1,846,059
San Luis Obispo County	San Luis Obispo	3.45%	Public Transit Construct a portion of a new airport terminal at the San Luis Obispo County Regional Airport.	Ensure the continued viability of the airport and commercial air service for the County, while providing an upgraded passenger facility and satisfying Federal Aviation Administration safety concerns. Meet current security requirements, airline needs, and customer expectations. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 580	\$6,000,000	\$29,422,008
City of Redlands	Redlands	3.24%	City Streets Resurface, reconstruct, and rehabilitate 27 lane miles of public streets located in major economic areas of Redlands.	Reduce wear and tear on vehicles, attract new businesses with enhanced curb appeal and ease of access, retain existing businesses, and attract new residents to the area resulting in increased sales tax revenue. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 655	\$3,030,300	\$0

APPENDIX 1—ISRF PROGRAM FINANCINGS APPROVED

Name of Borrower	Project Location	Interest Rate	Category and Project Description	Public Benefits (Including Expected Employment, Environmental Impact and Economic Value)		Approved Loan Amount	Leverage
San Diego Convention Center Corporation and City of San Diego	San Diego	3.59%	Educational, Cultural and Social Replace the Sails Pavilion roof, the cooling towers, fire life safety system, and modernize the escalator systems.	Provide necessary upgrades to the Convention Center facilities, enhancing the City’s ability to draw visitors to events resulting in increased sales tax revenue. Estimated Permanent Jobs: 0 Estimated Construction Jobs: 150		\$25,500,000	\$0
Total Loans Approved: 7				Estimated Permanent Jobs: 100	Estimated Construction Jobs: 1,500	\$86,569,301	\$38,363,665
				Total Estimated Jobs: 1,600			

APPENDIX 2—CLEAN CENTER FINANCINGS APPROVED

Name of Borrower	Project Location	Interest Rate	Category and Project Description	Public Benefits (Including Expected Employment, Environmental Impact and Economic Value)		Approved Loan Amount	Leverage
City of Huntington Beach	Huntington Beach	2.32%	Power and Communications Acquire 11,181 existing streetlights from Southern California Edison and retrofit with Light Emitting Diode (LED) technology.	Estimated annual energy savings of 3,514,534 kilowatt-hour (kWh) beginning the first year after installation, lowering energy costs for the City. Estimated Permanent Jobs: 1 Estimated Construction Jobs: 5		\$7,692,425	\$1,076,924
Total Loans Approved: 1				Estimated Permanent Jobs: 1	Estimated Construction Jobs: 5	\$7,692,425	\$1,076,924
				Total Estimated Jobs: 6			

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)	Financing Amount	Leverage
Industrial Development Bonds (IDBs)							
Capital Corrugated, Inc.	Sacramento, CA	IDB	Fixed Rate 2.97%	Acquire and install equipment at project site.	Introduce better technology to meet increased demand, reduce operating costs and raw material waste. Expected to add an additional 15 full-time employees to the current 115 employees within two years of project completion. Estimated Permanent Jobs: 15 Estimated Construction Jobs: N/A	\$3,810,000	\$78,109
Nonprofit, Public Benefit Entities, (501 (c)(3)s)							
Academy Museum Foundation (Series A & B)	Los Angeles	501(c)(3) ⁴	Fixed Rate 3.717% All-In TIC ⁵	Refinance IBank Series 2008 Bonds, note used for a long term site lease, construction costs of the Academy Museum and costs of issuance.	Promote the rich history of the motion picture industry, including educational exhibits and activities, displaying memorabilia, and other features that permit visitors to experience the arts and science of motion pictures. Estimated Permanent Jobs: 135 Estimated Construction Jobs: 500	\$340,960,000	\$0

⁴ “501(c)(3)” means qualified 501(c)(3) conduit revenue bond, which provides tax-exempt financing for capital improvement projects of specified nonprofit corporations.

⁵ TIC” means True Interest Cost.

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)	Financing Amount	Leverage
Chatsworth Hills Academy, Inc. (Series A, B & C)	Chatsworth, Los Angeles County	501(c)(3)	Fixed Rate 4% on Series A & Variable Rates on Series B & C	Refinance existing taxable debt incurred to acquire 12 acres of the campus that had been previously leased by Chatsworth Hills Academy.	Lower the borrowing cost for the Academy, saving about \$65,000 per year in interest. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$6,500,000	\$100,000
Discovery Science Center (Series A & B)	Santa Ana, CA	501(c)(3)	Variable Rate	Renovate existing building, the expanded 44,500 square foot California Natural Resources Pavilion, a new Life Sciences Building and Discovery Environmental Pavilion. Construct a green parking lot and expand the campus, including buildings, exhibits, and an IMAX Theater.	Support over 750,000 children and adults annually through educational programs and exhibits, and is expected to add 50 additional staff to Discovery's current 175 staff. Estimated Permanent Jobs: 50 Estimated Construction Jobs: N/A	\$18,000,000	\$0

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)	Financing Amount	Leverage
Pueblo Serra Worship Holdings (JSerra Catholic High School)	San Juan Capistrano, CA	501(c)(3)	Variable Rate	Modify and restructure the ownership of the IBank Bonds, Series 2013A, Series 2013B, and Series 2013C	Allow school to better administer its finances and still be able to contribute to community and cultural events. Continue to support students with financial aid and scholarships; JSerra has provided over \$1 million in financial aid and scholarships to students. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$215,000	\$0
United Cerebral Palsy of the North Bay, Inc.	Napa, Solano, Sonoma, CA	501(c)(3)	Fixed Rate at 2.60% till 2022 and Variable Rate	Refinance the cost of the acquisition, improvement, equipping, and furnishing of facilities and pay certain costs of issuance.	Long-term security by freeing up investment opportunities currently used as collateral under the existing loan. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$7,796,000	\$0
SF Waldorf School Association (Series A & B)	San Francisco, CA	501(c)(3)	Variable Rate	Refund Borrower’s tax-exempt California Statewide Communities Development Authority (CSCDA) 2006 bonds and construct a new gym/multi-purpose facility.	An estimated annual savings of \$646,878 in the first 7 years and use of a new gymnasium/multi-purpose facility. Estimated Permanent Jobs: 75 Estimated Construction Jobs: N/A	\$16,500,000	\$1,375,000

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)	Financing Amount	Leverage
Shalhevet High School	Los Angeles, CA	501(c)(3)	3.5% for the first 5 years, then Variable Rate	Finance and refinance school construction costs and pay cost of issuance.	Annual debt savings of \$558,858, equaling \$4,113,023 over 10 years. Estimated Permanent Jobs: 50 Estimated Construction Jobs: N/A	\$10,571,000	\$0
Theatre for Children, Inc. dba The B Street Theatre	Sacramento CA	501(c)(3)	Variable Rate	Construct new theatre complex at 1315 27th Street, Sacramento, CA.	Contribute to Sacramento’s Mid-Town District Redevelopment Plan, support tourism, add cultural amenities, and contribute to the quality of life. Project is estimated to create 42 direct job and 30 indirect jobs. Estimated Permanent Jobs: 42 Estimated Construction Jobs: N/A	\$12,000,000	\$11,804,108
The Walt Disney Family Museum Series 2016	San Francisco, CA	501(c)(3)	Fixed; 2.858% TIC	Refund and defease a portion of the 2008 Series.	Provide an estimated net present value savings of over \$5,000,000. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$47,455,000	\$0

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)	Financing Amount	Leverage
Segerstrom Center for the Arts	Costa Mesa, CA	501(c)(3)	Fixed; 1.675% All-in-TIC	Refund all or a portion of the Series 2011A bonds, and portions of the Series 2008A, B and D Bonds on a pro-rata basis; establishing a Debt Service Reserve Fund; paying cost of issuance.	Educational programs reach approximately 350,000 young people in seven California counties annually. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$42,000,000	\$0
Public Agency Revenue Bonds (PARBs)							
State Water Board Clean Water State Revolving Fund Revenue Bonds, Series 2016 (Green Bonds)	Statewide	Tax-exempt Revenue Bonds (PARB)	2.105% All-In TIC	Support the State Water Board in providing financial assistance to local agencies in California under the Clean Water State Revolving Fund.	Assist local governments and other public entities to finance wastewater infrastructure projects statewide. Help improve water quality, and protect the environment and public health. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$410,735,000	N/A
IBank ISRF Program Revenue Bonds							
IBank (ISRF Program Revenue Bonds Series 2016A)	Statewide	ISRF Tax-Exempt Revenue Bonds	3.03% All-In TIC	Leverage outstanding ISRF Program financings and provide additional program funds for future financings.	Expand the capacity of the ISRF Program to make financings for municipal infrastructure without additional State General Fund appropriations. Estimated Permanent Jobs: N/A Estimated Construction Jobs: N/A	\$141,600,000	N/A

APPENDIX 3—BOND PROGRAMS BONDS ISSUED

Name of Borrower	Project Location	Type of Financing	Interest Rate	Project Description	Public Benefits (Including Expected Employment Impact)		Financing Amount	Leverage
Total Bonds Issued: 18					Estimated Permanent FTE Jobs: 317	Estimated Construction Jobs: 500	\$1,058,142,000	\$13,357,217
					Total Estimated Jobs: 817

October 13, 2016

To the Board of Directors:

I am pleased to submit for the fiscal year ended June 30, 2016 the Comprehensive Annual Financial Report (CAFR) of the California Infrastructure and Economic Development Bank Fund and the California Infrastructure Guarantee Trust Fund, enterprise funds of the California Infrastructure and Economic Development Bank (IBank), a component unit of the State of California. The CAFR includes the financial activities of IBank's Infrastructure State Revolving Fund (ISRF) Program, the California Lending for Energy and Environmental Needs (CLEEN) Center Program and Conduit Bond Program included in the California Infrastructure and Economic Development Bank Fund (CIEDB Fund) and the California Infrastructure Guarantee Trust Fund (Guarantee Trust Fund) (collectively, the CIEDB Fund and the Guarantee Trust Fund are the Funds). The continuing disclosure agreements related to IBank's revenue bonds that provided funding for the ISRF Program (ISRF Program Bonds) require annual audited financial statements and this CAFR fulfills that requirement.

The net position of the Funds was \$280,326,209 as of June 30, 2016, all of which was restricted. Net position increased by \$34,369 over the previous fiscal year directly as a result of positive investment earnings to offset the operating loss. This year the demand for IBank's current infrastructure program continues to increase, while at the same time IBank launched its new clean energy, water and environmental program to address the funding requirements of a wider spectrum of local governments and communities within the State of California (State). Local governments and communities have seriously begun to address the much-needed infrastructure, economic development, clean energy, water and environmental projects that have been delayed for many years, but are vital to the success and growth of the State's economy. The limits on affordable funds and financings continue to be a major consideration when starting such projects that are needed to improve the quality of life throughout the State and preserve California's infrastructure, environment and economy. IBank is now recognized as a major contributor to the success of the State's economic renewal.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that is established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Macias Gini & O'Connell LLP has issued an unmodified ("clean") opinion on the Funds' financial statements for the fiscal year ended June 30, 2016. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of IBank

IBank was established in 1994 to promote economic revitalization, enable future development, and encourage a healthy climate for jobs in California. IBank operates pursuant to the Bergeson-Peace Infrastructure and Economic Development Bank Act contained in the California Government Code section 63000 *et seq.* IBank is a component unit of the State of California located within the Governor's Office of Business and Economic Development (GO-Biz) and is governed by a five-member Board of Directors.

IBank has broad authority to issue tax-exempt and taxable revenue bonds, provide financing to public agencies and certain tax-exempt non-profit organizations that are sponsored by public agencies, provide credit enhancements, including guarantees, acquire or lease facilities, and leverage State and Federal funds. IBank's current programs include the ISRF Program, 501(c)(3) Revenue Bond Program, Industrial Development Revenue Bond Program, Exempt Facility Revenue Bond Program, Public Agency Revenue Bond Program and the CLEEN Center programs. The CLEEN Center financed its first energy efficiency project for \$3,000,000 to fund the acquisition of city street lights and light emitting diode (LED) retrofit under its Statewide Energy Efficiency Program during the fiscal year ended June 30, 2016. The Small Business Finance Center (SBFC) became a program of IBank during the 2013-14 fiscal year; however, the SBFC's financial activities are not included in this report.

With the exception of funds for program support and the SBLGP administration, which must be annually appropriated by the State Legislature, all IBank funds are continuously appropriated without regard to fiscal year. Continuous appropriation authority means that no further appropriations are necessary to expend funds held in either the CIEDB Fund or the Guarantee Trust Fund.

Economic Condition

On a year-over-year basis (July 2015 to July 2016 seasonally adjusted), nonfarm payroll employment (wage and salary jobs) in California increased by 374,600 jobs (up 2.3 percent) and continues the State's seventh year of expansion. In July California's nonfarm payroll jobs increased by 36,400 for a total gain of 2,302,500 since the recovery began in 2010. The State's unemployment rate decreased from 6.1 percent in July 2015 to 5.4 percent in June 2016. Education and health services posted the largest year-over-year gain, adding 87,000 jobs, followed by professional and business services with a gain of 77,800 jobs. Other categories adding jobs over the year included leisure and hospitality (65,900), trade, transportation and utilities (53,500), and government (44,600). Governor Brown has signed a balanced, on-time 2016-2017 budget that prepares the State for the next recession by increasing the Rainy Day Fund to a total balance of \$6.7 billion and limiting new ongoing spending obligations.

Demand for the ISRF Program increases with 213 inquiries in fiscal year 2015-2016 over the 94 inquiries experienced in fiscal year 2014-2015. The increase in the credit quality of the borrowers and the amount of financing requested in excess of \$1.1 billion, clearly demonstrates that the demand over the past year for ISRF Program financings for infrastructure and economic development projects continue to intensify. We anticipate sustained demand for IBank's ISRF Program and CLEEN Center Program as the State's economy continues to grow and prospective borrowers are better positioned to finance public infrastructure, water and private development projects through IBank's low-cost programs.

All required repayments were made by the borrowers on ISRF Program Loans during the fiscal year and continued timely repayment is expected.

For the first time since IBank began issuing ISRF Revenue Bonds in 2004, Moody's Investors Service (Moody's) awarded its highest rating—"Aaa"—to the 2016A Bonds. In addition to awarding its "Aaa" rating to the 2016A Bonds, Moody's upgraded IBank's Series 2014A and Series 2015A Bonds to "Aaa", from "Aa1". Standard and Poor's Rating Services (S&P) and Fitch Ratings (Fitch) each also awarded a "AAA" rating to the 2016A Bonds and affirmed their respective "AAA" rating on the 2014A and 2015A Bonds. The credit rating agencies (Rating Agencies) cited pool diversity, sound program management, financial policies, and market position, among other factors, as support for the ratings. All outstanding ISRF Revenue Bonds now have the top rating from each of the 'Big Three' Rating Agencies—Standard and Poor's Rating Services (S&P) ("AAA"), Fitch Ratings (Fitch) ("AAA"), and Moody's Investors Service (Moody's) ("Aaa,"). These strong ratings reflect the ISRF Program's extremely strong financial risk score and very strong enterprise risk score.

Long-term Financial Planning

IBank's priorities for the upcoming years include but are not limited to the following: providing funding to infrastructure, clean energy, water, environmental and economic development projects, creating sector-specific financing instruments and funds, developing public-private investment opportunities, and facilitating state-wide outreach to potential customers for all of IBank's programs. These priorities will provide access to more affordable funds for California infrastructure, clean energy, water, environmental and economic development projects, while maintaining the Funds' positive net position.

I wish to acknowledge all of the staff of the California Infrastructure and Economic Development Bank for their consistent dedication and contribution to the success of the organization and the State. In particular, I wish to acknowledge the Fiscal Unit staff for the preparation of this Comprehensive Annual Financial Report.

Respectfully submitted,

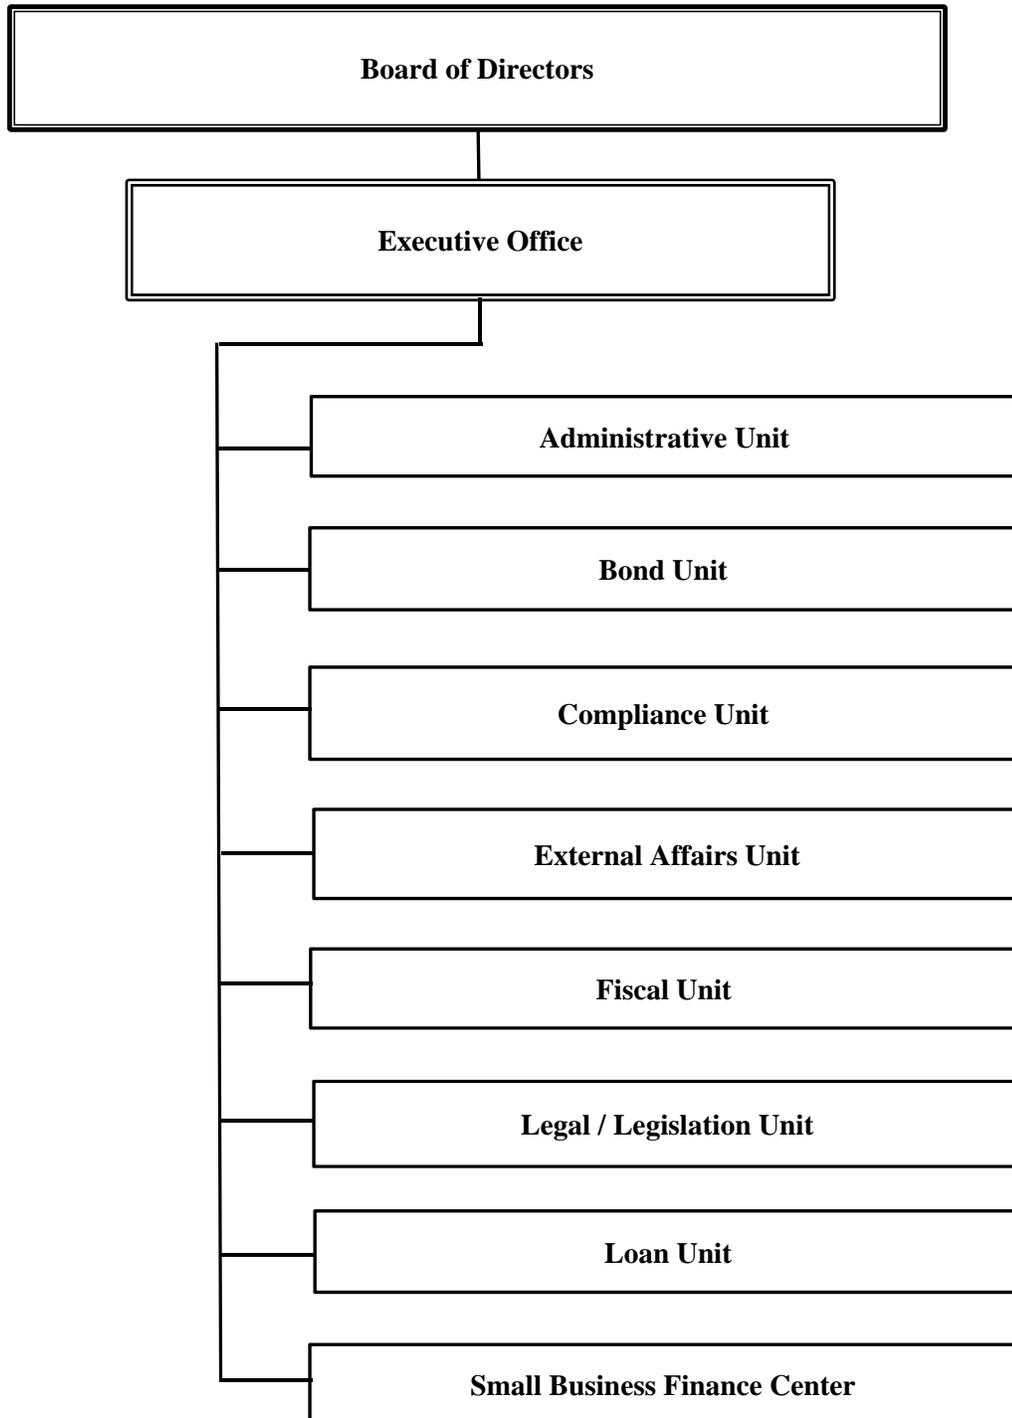

Teveia R. Barnes

FINANCIAL SECTION

Independent Auditor's Report

To the Board of Directors of the
California Infrastructure and Economic Development Bank
Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the California Infrastructure and Economic Development Bank Fund and California Infrastructure Guarantee Trust Fund (collectively, the Funds), enterprise funds of the California Infrastructure and Economic Development Bank (IBank), a component unit of the State of California, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Funds of IBank, as of June 30, 2016, and the changes in their financial position and their cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Basis of Presentation

As discussed in Note 2.A, the financial statements present only the Funds and do not purport to, and do not, present fairly the financial position of IBank as of June 30, 2016, the changes in its financial position, or, where applicable, its cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. IBank's California Small Business Expansion Fund, its only other fund, is included in and subject to the audit of the State of California's financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of the Funds' proportionate share of the net pension liability, and the schedule of Funds' contributions, as listed in the table of contents, be presented to supplement the fund financial statements. Such information, although not a part of the fund financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the fund financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the fund financial statements, and other knowledge we obtained during our audit of the fund financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the fund financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not required parts of the fund financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the fund financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2016, on our consideration of IBank's internal control over financial reporting as it relates to the Funds and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering IBank's internal control over financial reporting and compliance as it relates to the Funds.

Macias Gini & O'Connell LLP

CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Introduction

The following Management's Discussion and Analysis (MD&A) provides an overview to the financial statements of the California Infrastructure and Economic Development Bank Fund (CIEDB Fund) and California Infrastructure Guarantee Trust Fund (Guarantee Trust Fund), enterprise funds of the California Infrastructure and Economic Development Bank (IBank), a component unit of the State of California (State), a description of its activities, and an analysis of the financial position of the CIEDB Fund and the Guarantee Trust Fund for the fiscal year ended June 30, 2016 (collectively, the CIEDB Fund and the Guarantee Trust Fund are the Funds). The Funds do not receive any State General Fund support. The Funds' programs continue to provide revenues sufficient to support all operating expenses.

The information presented in this section should be read in conjunction with the information in our letter of transmittal on pages 3-5 of this report and the financial statements and notes that follow this section.

IBank and Current Programs

IBank is a State of California financing authority whose mission is to finance public infrastructure and private development that promote a healthy climate for jobs, contribute to a strong California economy, and improve the quality of life in California communities. IBank has broad authority to issue tax-exempt and taxable revenue bonds, provide financing to public agencies, provide credit enhancements, including guarantees, acquire or lease facilities, and leverage State and Federal funds. The Funds' current operations are funded solely from fees, interest earnings, and Infrastructure State Revolving Fund Program loan¹ repayments. IBank is a component unit of the State of California (State) and the Funds' financial statements are included in the State's Comprehensive Annual Financial Report.

IBank's major programs include the Infrastructure State Revolving Fund (ISRF) Program, which is a revolving loan program that provides financing to local government entities for eighteen categories of public infrastructure and economic expansion projects, and a variety of conduit revenue bond financing programs, including the Industrial Development Bond Program for manufacturing and processing companies, the 501(c)(3) Revenue Bond Program for nonprofit public benefit corporations, State School Fund Bond Program and the Public Agency Revenue Bond Program for governmental entities. Conduit bonds issued by IBank are a limited obligation of IBank payable solely from the revenues generated by the underlying borrower. The Small Business Loan Guarantee Program, which issues guarantees to lenders of loans to small businesses having difficulty securing financing on their own, was established under the Small Business Finance Center, a program of IBank, in October 2013. However, the Small Business Finance Center's financial activities and position are not included in this report.

¹ "Loan" is generically used to refer to a loan, a lease or an installment sale agreement.

BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

On August 25, 2015, the IBank Board of Directors approved the criteria, priorities and guidelines to select and underwrite projects for financing under the California Lending for Energy and Environmental Needs (CLEEN) Center. IBank's CLEEN Center provides low-cost financing to eligible State and local governments, and public universities, schools, and hospitals. The approved eligible projects include commercially proven technologies that are expected to result in carbon reduction benefits, water conservation or other environmental benefits within the State, including energy efficiency, renewable energy, energy storage, alternative technologies, alternative fuels, transportation and water. IBank financed its first energy efficiency project under the CLEEN Center in May 2016.

Financial Highlights 2015-16

- The net position of the Funds was \$280.3 million as of June 30, 2016, all of which was restricted. There was an operating loss of \$710 thousand. The operating loss was offset by investments earnings and resulted in an increase in net position of \$34 thousand.
- Total cash, cash equivalents, and investments increased during the fiscal year by \$195.1 million or 91% primarily as a result of proceeds received from the issuance of the 2016A ISRF Program Bonds and loan repayments exceeding loan disbursements and bond debt service payments.
- Total loans receivable decreased during the fiscal year by \$2.4 million because loan repayments exceeded new loans closed during the fiscal year.
- The revenue bonds payable increased by \$164.3 million or 79% primarily due to the issuance of \$141.6 million in 2016A ISRF Program Bonds on June 14, 2016.

Overview of the Financial Statements

The financial section of this annual financial report consists of this MD&A, the financial statements, and the notes to the financial statements. This MD&A is a discussion of many aspects of the Funds' operations and financial status and its information was compiled from the Funds' financial statements and accompanying notes.

The financial statements have been prepared using the economic resources measurement focus and accrual basis of accounting in accordance with generally accepted accounting principles and include the following three statements:

- The *Statement of Net Position* presents information on the assets, liabilities and deferred inflows/outflows of resources of the Funds, with the difference reported as net position. Over time, increases or decreases in net position are expected to serve as a useful indicator of whether the financial position of the Funds are improving or deteriorating.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

- The *Statement of Revenues, Expenses, and Changes in Fund Net Position* presents information reflecting how the net position of the Funds changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.
- The *Statement of Cash Flows* reports the cash flows from operating activities, noncapital financing activities and investing activities, and the resulting impacts to cash and cash equivalents for the fiscal year.

The financial statements included in this annual financial report are those of IBank's CIEDB Fund and Guarantee Trust Fund. As discussed in Note 1, The Financial Reporting Entity, the financial statements herein are intended to present the financial position, change in financial position and cash flows of only IBank's ISRF Program, CLEEN Center Program and Conduit Bond Program. The financial statements do not purport to present the financial position of the Small Business Loan Guarantee Program or any other reporting entity.

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the data provided in the financial statements. These notes can be found immediately following the financial statements.

Statement of Net Position

The following table presents a condensed, combined Statement of Net Position as of June 30, 2016 and 2015, and the dollar and percentage change from the prior year.

	2016	2015	\$ Change	% Change
Cash, cash equivalents, and investments - restricted	\$ 409,467,388	\$ 214,344,782	\$ 195,122,606	91.0%
Loans receivable	308,116,217	310,513,224	(2,397,007)	-0.8%
Other assets	3,848,492	3,765,003	83,489	2.2%
Total Assets	<u>721,432,097</u>	<u>528,623,009</u>	192,809,088	36.5%
Total Deferred Outflows of Resources	<u>4,718,162</u>	<u>4,718,881</u>	(719)	0.0%
Total Assets and Deferred Outflows of Resources	<u>\$ 726,150,259</u>	<u>\$ 533,341,890</u>	<u>\$ 192,808,369</u>	36.2%
Revenue bonds payable	\$ 372,570,634	\$ 208,290,797	\$ 164,279,837	78.9%
Net pension liability	3,945,940	3,200,240	745,700	23.3%
Other liabilities	5,789,170	3,296,412	2,492,758	75.6%
Undisbursed loan commitments	63,432,168	37,666,191	25,765,977	68.4%
Total Liabilities	<u>445,737,912</u>	<u>252,453,640</u>	193,284,272	76.6%
Total Deferred Inflows of Resources	86,138	596,410	(510,272)	-85.6%
Net Position - Restricted - Expendable by Statute	<u>280,326,209</u>	<u>280,291,840</u>	<u>34,369</u>	0.0%
Total Liabilities, Deferred Inflows of Resources and Net Position	<u>\$ 726,150,259</u>	<u>\$ 533,341,890</u>	<u>\$ 192,808,369</u>	36.2%

Assets

Total assets increased by \$192.8 million over the prior year. Cash, cash equivalents, and investments-restricted increased as a result of cash received from the issuance of the 2016A ISRF Program Bonds.

Loans receivable (pledge, non-pledged and CLEEN) totaled \$308.1 million as of June 30, 2016, a decrease of \$2.4 million because loan repayments exceeded new loans closed during the fiscal year.

Liabilities

Total liabilities were \$445.7 million as of June 30, 2016, an increase of 77% over the prior fiscal year. The largest liability is revenue bonds payable, which consists of three series of ISRF Program Bonds, one issued in February 2014, one issued in June 2015 and one issued in June 2016. Revenue bonds payable increased by \$164.3 million due to the issuance of \$141.6 million in 2016A ISRF Program Bonds on June 14, 2016.

BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Operating Expenses

The following chart presents operating expenses by category:

Total operating expenses were \$11.6 million during the fiscal year compared to \$8.8 million for the prior fiscal year, an increase of 32%. This was due primarily to a full year of interest expense on the 2015A ISRF Program Bonds in the current year that was not incurred in the prior year because the 2015A ISRF Program Bonds were issued in June 2015.

Budgetary Information

With the exception of funds for program support, which must be annually appropriated by the State Legislature, all other IBank funds in the Funds are continuously appropriated without regard to fiscal year. Continuous appropriation authority means that no further appropriations are necessary to expend funds held in either the CIEDB Fund or the Guarantee Trust Fund.

INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Debt Administration

IBank administers the ISRF Program, a leveraged revolving loan program. Initial ISRF Program Loans were funded with previous State General Fund appropriations. IBank issued \$51.37 million in ISRF Program Revenue Bonds in March 2004, \$52.80 million in December 2005, \$48.37 million in September 2008, \$95.96 million in February 2014, \$90.1 million in June 2015 and \$141.6 million in June 2016 (collectively, ISRF Program Bonds) to provide additional funding for ISRF Program Loans. The 2014A ISRF Program Bonds were issued to refund the 2004 and 2005 ISRF Program Bonds and to refinance existing bond anticipation loans. The 2015A ISRF Program Bonds were issued to refund the 2008 ISRF Program Bonds and to refinance existing bond anticipation loans. The ISRF Program Bonds were sold without a credit enhancement, and in 2004 and 2005, were initially rated AA, Aa2, and AA by Standard & Poor's, Moody's Investors Service, and Fitch Ratings, respectively. Upon the issuance of the 2008 ISRF Program Bonds, Standard & Poor's and Fitch Ratings raised the ratings on the ISRF Program Bonds to AA+, citing proactive and strong program oversight and management, and thorough ongoing surveillance of existing Loans as key factors to the high credit ratings on the bonds. The 2014A and 2015A ISRF Program Bonds were assigned a rating of AAA, Aa1, and AAA by Standard & Poor's (S&P), Moody's Investors Service (Moody's), and Fitch Ratings (Fitch), respectively. S&P and Fitch assigned a stable outlook to the 2014A and 2015A ISRF Program Bonds. Moody's assigned a stable outlook to the 2014A ISRF Program Bonds and a positive outlook to the 2015A ISRF Program Bonds. Moody's rated the 2016A ISRF Program Bonds Aaa. In addition, Moody's upgraded IBank's Series 2014A and Series 2015A Bonds to Aaa, from Aa1. S&P and Fitch each rated the 2016A ISRF Program Bonds AAA and affirmed their respective AAA rating on the 2014A and 2015A ISRF Program Bonds. The credit rating agencies cited pool diversity, sound program management, financial policies, and market position, among other factors, as support for the ratings. All outstanding ISRF Program Bonds now have the top rating from S&P (AAA), Fitch (AAA), and Moody's S&P (Aaa). These strong ratings reflect the ISRF Program's extremely strong financial risk score and very strong enterprise risk score. In addition, these strong ratings reflect the ISRF Program's ability to withstand defaults by the ISRF Program's borrowers while the ISRF Program could continue to pay the ISRF Program's bondholders.

Existing ISRF Program Loans are either funded from previous State General Fund appropriations, interest earned on the ISRF Program Loans, the repayment of principal on ISRF Program loans receivable, investment earnings, administration fee revenue, or the proceeds of ISRF Program Bonds. The 2014A, 2015A and 2016A ISRF Program Bonds are each structured under an open-indenture model. All ISRF Program Bonds are limited obligations of IBank payable solely from and secured solely by pledged ISRF Program Loan repayments, reserves, and reserve account interest earnings. Note 4 of the Notes to the Financial Statements contains additional information about the outstanding ISRF Program Bonds.

IBank also issues conduit revenue bonds including Industrial Development Bonds for certain privately-owned manufacturing and processing businesses, 501(c)(3) Revenue Bonds for nonprofit entities, State School Fund Bonds for financially troubled public school districts, and Public Agency Revenue Bonds for other state and local governmental entities. During the fiscal year, IBank served as the issuer for \$916,542,000 of conduit revenue bonds. Conduit bonds are a limited obligation of IBank payable solely from the pledged revenues of the conduit borrower. As such, except for administration fee revenue related to the conduit bond programs, conduit bond financial information is not reflected in the Funds' financial statements.

TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

1. THE FINANCIAL REPORTING ENTITY

The California Infrastructure and Economic Development Bank, a component unit of the State of California (State), is a public instrumentality of the State, organized and existing pursuant to the Bergeson-Peace Infrastructure and Economic Development Bank Act, constituting Division 1 of Title 6.7 of the California Government Code commencing with Section 63000 (Act). The California Infrastructure and Economic Development Bank has broad authority to issue tax-exempt and taxable revenue bonds, provide financing to public agencies, provide credit enhancements, including guarantees, acquire or lease facilities, and leverage State and Federal funds. The mission of the California Infrastructure and Economic Development Bank is to finance public infrastructure, clean energy, environmental and economic development projects that promote a healthy climate for job creation and retention, contribute to a strong California economy, and a healthy environment, and improve the quality of life in California communities. The California Infrastructure and Economic Development Bank is governed by a five-member Board of Directors (Board) consisting of the Director of the Governor's Office of Business and Economic Development, who serves as the chair, the Director of the Department of Finance, the State Treasurer, the Secretary of the State Transportation Agency, and an appointee of the Governor.

The California Infrastructure and Economic Development Bank (IBank) issues loans to municipal entities pursuant to the Infrastructure State Revolving Fund (ISRF) Program, the activities of which are accounted for in the California Infrastructure and Economic Development Bank Fund (CIEDB Fund) and the California Infrastructure Guarantee Trust Fund (Guarantee Trust Fund) (collectively, the CIEDB Fund and the Guarantee Trust Fund are the Funds), enterprise funds of IBank. The ISRF Program provides financing to local government entities for a wide variety of infrastructure projects throughout the State. Eligible ISRF Program borrowers include cities, counties, special districts, assessment districts, joint power authorities, non-profit corporations formed by local government entities, and non-profit organizations sponsored by a governmental entity. IBank issues revenue bonds (ISRF Program Bonds) to provide additional funding for the ISRF Program. The ISRF Program Bond indentures require an independent audit of the ISRF Programs. IBank also serves as a conduit issuer of revenue bonds, loans, and commercial paper for private, nonprofit and other governmental entities (Conduit Bond Programs), the activities of which are also accounted for in the Funds. Legislation requires an audit of IBank's activities under the Conduit Bond Program.

On August 25, 2015, the IBank Board of Directors approved the criteria, priorities and guidelines to select and underwrite projects for financing under the California Lending for Energy and Environmental Needs (CLEEN) Center, the activities of which are also accounted for in the Funds. IBank's CLEEN Center provides low-cost financing to eligible State and local governments, and public universities, schools, and hospitals. The approved eligible projects include commercially proven technologies that are expected to result in carbon reduction benefits, water conservation or other environmental benefits within the State, including energy efficiency, renewable energy, energy storage, alternative technologies, alternative fuels, transportation and water. IBank financed its first energy efficiency project under the CLEEN Center in May 2016.

INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Effective October 4, 2013, the Small Business Financial Assistance Act of 2013 created the Small Business Finance Center at the California Infrastructure and Economic Development Bank and transferred the California Small Business Expansion Fund, which accounts for the activities of the California Small Business Loan Guarantee Program (SBLGP), to the California Infrastructure and Economic Development Bank. The SBLGP provides repayment guarantees to lenders of loans to small businesses having difficulty securing financing on their own. The guarantees are issued by non-profit financial development corporations, on behalf of the California Infrastructure and Economic Development Bank, to banks and other lenders to help small business owners finance their business plans, including expanding operations, purchasing new equipment and infusing small businesses with working capital. Guarantees may also be issued on loans for start-up costs. The California Small Business Expansion Fund is not included in these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION / FUND FINANCIAL STATEMENTS

The financial statements presented in this report include only the financial activities of the Funds and do not purport to, and do not present fairly the financial position of IBank as of June 30, 2016, the changes in its financial position, or, where applicable, its cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. IBank's California Small Business Expansion Fund, its only other fund, is included in and subject to the audit of the State of California's financial statements.

Monies in the Funds are held within the California State Treasury or by the bond trustees for the ISRF Program Bonds (Trustees).

CIEDB Fund – With the exception of amounts spent for program support that require an annual appropriation by the State Legislature, the CIEDB Fund is continuously appropriated without regard to fiscal year and is available for expenditure for the program related purposes stated in the Act. The CIEDB Fund is an enterprise fund that includes the CLEEN Center programs. The CLEEN Center programs are currently funded with IBank equity.

Guarantee Trust Fund – The Guarantee Trust Fund is continuously appropriated to IBank without regard to fiscal year for the purpose of insuring all or a portion of the accounts and subaccounts within the CIEDB Fund, any contracts or obligations of IBank or a sponsor, as that term is defined in the Act, and all or a part of any series of bonds issued by IBank, by a special purpose trust or by a sponsor. Uncommitted monies may be transferred between the CIEDB Fund and the Guarantee Trust Fund when appropriate to accomplish the financing objectives of IBank. The Guarantee Trust Fund is an enterprise fund.

BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

B. ACCOUNTING PRINCIPLES

The accompanying financial statements have been prepared using the economic resources measurement focus and accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing financial services in connection with principal ongoing operations. The primary operating revenue reported in the Funds is financing income, representing interest on loans provided to ISRF Program borrowers. Also recognized in the Funds as operating revenue are the fees charged to ISRF Program borrowers and Conduit Bond Programs borrowers. Operating expenses primarily include interest expense on the ISRF Program Bonds and program support expenses. Investment income is reported as nonoperating revenue.

C. CASH AND EQUIVALENTS AND INVESTMENTS

IBank considers all short-term investments with an original maturity of three months or less to be cash equivalents. Cash and investments held in either the State's Surplus Money Investment Fund (SMIF), an internal investment pool, money market deposit accounts or funds held by the Trustees are considered to be highly liquid and cash equivalents. All investment income, including changes in the fair value of investments, is recognized as revenue in the Statement of Revenues, Expenses, and Changes in Fund Net Position.

In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures (Amendment of GASB No. 3)*, certain disclosure requirements, if applicable, for deposits and investment risks are specified relating to the following risks: interest rate, credit, custodial credit, concentrations of credit and foreign currency. In addition, other disclosures are specified including, but not limited to, the use of certain methods to present deposits and investments, highly sensitive investments and credit quality at year-end.

Certificates of deposit are recorded at cost. It is the intent of IBank to hold these certificates of deposit until maturity. IBank holds investments that are measured at fair value on a recurring basis. IBank categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

D. LOANS RECEIVABLE

IBank enters into loan agreements, installment sale agreements and lease agreements (Loans) to finance public infrastructure and economic development projects and projects for non-profit organizations sponsored by governmental entities pursuant to the ISRF Program. A majority of the Loans are pledged to the 2014A ISRF Program Bonds, 2015A ISRF Program Bonds and the 2016A ISRF Program Bonds (Series Pledged Loans). Loans receivable includes pledged and non-pledged Loans. Pledged and non-pledged Loans receivable consists of two components – the disbursed and the undisbursed amount of Loans. The disbursed amount of pledged Loans receivable includes amounts drawn by the borrower for reimbursement or payment of project costs. The undisbursed amount of pledged Loans receivable includes the balance available to be drawn by the borrowers and draws submitted for payment but unpaid at year-end, and is offset by a liability for outstanding undisbursed loan commitments. The current portion of undisbursed pledged and non-pledged Loan commitments is an estimate and is generally based upon projections provided by borrowers. These estimates are subject to change due to unforeseen weather conditions, construction delays related to change orders, delayed material shipment, subcontractor performance problems and other factors that cannot be reasonably predicted.

Prior to the issuance of the ISRF Program Bonds, Loans were funded solely by General Fund appropriations received from the State, Loan repayments, fee revenue, and investment income. Since the issuance of the ISRF Program Bonds, Loans have been funded from the proceeds of the ISRF Program Bonds and/or from proceeds of Loan repayments, fee revenue and investment income. There is no provision for uncollectible accounts as all Loans are current and expected at this time to be repaid according to the scheduled terms.

E. ISSUANCE COSTS

Costs associated with the issuance of each series of the ISRF Program Bonds included bond counsel and disclosure counsel fees, trustee fees, rating agency fees, underwriting costs, financial advisor fees and other miscellaneous expenses. The ISRF Program bond issuance costs are recognized as an expense when incurred.

F. REVENUE BONDS PAYABLE

Revenue bonds payable are stated at their unpaid balance plus any remaining unamortized premiums. Bond premiums are amortized using the effective-interest method over the terms of the respective ISRF Program Bonds. The ISRF Program Bonds are subject to mandatory and optional redemption prior to their stated maturity. The ISRF Program Bonds are not obligations of the State, and the taxing power of the State is not pledged for their payments. The obligation of IBank to make such payments is a limited obligation, payable solely from the ISRF Program Bonds collateral pledged by IBank.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

G. LOAN AND CONDUIT BOND FEES

IBank charges an origination fee and an annual servicing fee to ISRF Program borrowers. The origination fee is due upon execution of the Loan agreement and is collected no later than the date of the borrower's first disbursement. Loan origination fees are recognized as revenue when due. The annual servicing fee is recognized as revenue when earned. IBank also charges application, bond issuance and annual fees to Conduit Bond Programs borrowers. Conduit bond fees are recognized as revenue when earned.

H. COMPENSATED ABSENCES PAYABLE

Compensated absences payable represents employees' earned but unused vacation, annual leave, and other similar leave program balances which are eligible for payment upon separation from state service. Unused sick-leave balances are not included as they are converted to additional service credit used in the calculation of postemployment benefits. Compensated absences payable is a long-term obligation because leave earned in the current period is considered to be used before any unused leave from prior years (LIFO) and it is anticipated that employees will not generally use more leave than the amount earned in the current period.

I. DEFERRED OUTFLOWS/DEFERRED INFLOWS OF RESOURCES

In addition to assets and liabilities, the statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of resources that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then. Conversely, deferred inflows of resources represent an acquisition of resources that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

The loss on refunding debt resulting from the difference in the carrying value and reacquisition price of the refunded debt, is reported as a deferred outflow of resources and is amortized over the shorter of the life of the refunded debt or refunding bond.

Contributions made to the pension plan after the measurement date but before the fiscal year-end are recorded as a deferred outflow of resources and will reduce the net pension liability in the next fiscal year.

Additional factors involved in the calculation of IBank's pension expense and net pension liability include the differences between expected and actual experience, changes in assumptions, differences between projected and actual investment earnings, changes in proportion, and differences between IBank's contributions and proportionate share of contributions. These factors are recorded as deferred outflows and inflows of resources and amortized over various periods. See Note 7 for further details related to these pension deferred outflows and inflows.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

J. PENSIONS

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Funds' portion of the California Public Employees' Retirement System (CalPERS) Miscellaneous Plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

K. CLASSIFICATION OF NET POSITION

Restricted net position represents amounts restricted due to external restrictions imposed by creditors, laws or regulations of the government, and restrictions imposed by law through constitutional provisions or enabling legislation. The net position reported in the Funds is restricted by statute for programs established by IBank and for programs administered pursuant to the Act.

L. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the reporting date and revenues and expenses during the reporting period. Actual results could differ from those estimates.

M. CURRENT YEAR GASB IMPLEMENTATION

For the year ended June 30, 2016, IBank implemented GASB Statement No. 72 (GASB 72), *Fair Value Measurement and Application*. The primary objective of GASB 72 is to provide guidance for applying fair value to certain investments and disclosures related to all fair value measurements. There was no material impact on IBank's financial statements as a result of the implementation of Statement No. 72. All required disclosures were added to Note 3.

3. CASH AND EQUIVALENTS AND INVESTMENTS

IBank follows GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. This statement requires the disclosure of the interest rate, credit, custodial credit, concentration of credit and foreign currency risks to the extent that they exist at the date of the Statement of Net Position. Additional disclosure detail required by GASB Statement No. 40 for cash deposits, investments, and derivatives within the State's centralized treasury system can be found in the State's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015, which is the latest available.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Due to the specified nature of the activities reported in the Funds as established in the Act, all cash, cash equivalents, and investments are considered restricted at June 30, 2016, since these funds cannot be spent for any purpose other than as established in the Act.

Investments are made pursuant to an investment policy initially adopted by the Board in March 2006 and as amended by the Board on April 27, 2010. The Investment Policy, with certain clarifications and changes, was reviewed and approved by the Board on February 24, 2015. The Investment Policy provides guidelines for the prudent investment while maximizing efficiency and financial return in conformance with all applicable State statutes governing the investment of public funds, with the foremost objectives being safety and liquidity.

Pursuant to the Investment Policy, IBank may, from time to time, direct the State Treasurer (Treasurer) to invest monies in the CIEDB Fund and Guarantee Trust Fund held within the State's centralized treasury system that are not required for its current needs, in any eligible securities specified in Government Code Section 16430 as IBank shall designate. IBank may direct the Treasurer to invest monies in the Guarantee Trust Fund in certain repurchase agreements, investment agreements and subordinated securities as specified in Government Code Section 63062(a). IBank may direct the Treasurer to deposit monies in the Funds in interest-bearing accounts in qualified public depositories as established by State law, including any bank in the State or in any savings and loan association in the State. IBank may alternatively require the transfer of monies in the Funds to the SMIF for investment.

Government Code Sections 63052(e), 63062(b) and 5922(d) provide that bond proceeds and monies set aside and pledged to the repayment of bonds may be invested in securities or obligations described in the indenture for those bonds. Monies in each of the accounts with respect to the 2014A ISRF Program Bonds, 2015A ISRF Program Bonds and 2016A ISRF Program Bonds issued under the Indenture, dated as of February 1, 2014, between IBank and US Bank National Association, as trustee, (Trustee) as supplemented and amended by the First Supplemental Indenture dated as of February 1, 2014 between IBank and the Trustee, the Second Supplemental Indenture dated as of June 1, 2015 between IBank and the Trustee and the Third Supplemental Indenture dated as of June 1, 2016 between IBank and the Trustee (Indenture) are held by the Trustee and shall be invested and reinvested by the Trustee in permitted investments, as that term is defined in the Indenture. The permitted investments mature or are subject to redemption by the owner thereof prior to the date such funds are expected to be needed.

Investments Authorized by the California Government Code and the Investment Policy

The following table identifies the investment types that are authorized by Government Code sections 16430, 5922(d), 63052(d) and (e), and 63062(a) and (b) or the Investment Policy, where more restrictive. The table below also identifies certain provisions of the California Government Code, or the Investment Policy, where more restrictive, that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds and other monies held by the Trustees that are governed by the provisions of the Indenture, but rather the general provisions of the California Government Code or the Investment Policy.

¹ The Investment Policy authorizes investing bond reserve funds and bond revenue funds beyond five years if prudent in the opinion of the Executive Director.

² N/A means neither the Government Code nor the Investment Policy sets a limit.

³ As rated by each of S&P, Moody's and Fitch.

IBank has invested excess cash reported in the Funds held within the State's centralized treasury system in SMIF. All of the resources in SMIF are invested through the Pooled Money Investment Account (PMIA). The PMIA investment program is overseen by the Pooled Money Investment Board and is administered by the Treasurer.

INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Cash and equivalents at June 30, 2016 were as follows:

SMIF	\$ 53,981,676
Money Market Deposit Accounts	<u>342,724,768</u>
Total Cash and Equivalents	<u>\$ 396,706,444</u>

Investments at June 30, 2016 were as follows:

Certificate of Deposit	\$ 6,308,000
Medium Term Note	<u>6,452,944</u>
Total Investments	<u>\$ 12,760,944</u>

Fair Value Measurement

GASB 72 requires the IBank to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. Statement No. 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included within level 1, which are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs.

The certificate of deposit is not negotiable and therefore, not subject to fair value measurement as the redemption terms do not consider market rates. SMIF, being an investment pool, is subject to the fair value measurement; however, it is not subject to the fair value hierarchy. The medium term note is classified as Level 2 of the fair value hierarchy because it is valued using a matrix pricing model.

Deposit and Investment Risk Disclosures

Interest Rate Risk. Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by weighted average to maturity, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with a shorter duration. As of June 30, 2016, the weighted average maturity of the investments contained in SMIF is approximately 167 days. The certificate of deposit and medium term note mature on July 24, 2017 and May 26, 2020, respectively.

Credit Risk. Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. SMIF and the certificate of deposit do not have a rating provided by a nationally recognized statistical rating organization. The medium term note was rated A1 by S&P.

BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Custodial Credit Risk. Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, IBank will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2016, the Funds reported \$342,724,768 in money market deposit accounts with U.S. Bank, a national depository financial institution, \$250,000 of which was covered by federal deposit insurance. The remainder was uncollateralized.

The custodial risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, IBank will not be able to recover the value of its investment or collateral securities that are in the possession of another party. As of June 30, 2016, SMIF and the investments were not subject to custodial credit risk.

4. REVENUE BONDS PAYABLE

On February 6, 2014, IBank issued \$95,960,000 in ISRF Program Bonds. A portion of the proceeds, \$82,184,703, was used to advance refund \$78,440,000 of outstanding 2004 and 2005 ISRF Program Bonds. These proceeds were deposited in an irrevocable trust with an escrow agent to pay the future debt service on the refunded bonds. As a result, the 2004 and 2005 ISRF Program Bonds are considered defeased and the liability for those bonds has been removed from the Statement of Net Position. The remaining proceeds were used to fund ISRF Program Loans that were made in anticipation of the issuance of the 2014 ISRF Program Bonds.

The reacquisition price (amount placed in escrow to repay the 2004 and 2005 ISRF Program Bonds) exceeded the net carrying amount of those bonds by \$896,045. This loss on the bond refunding is reported as a deferred outflow of resources on the Statement of Net Position and will be amortized over the remaining life of the refunded bonds. As of June 30, 2016 the balance of the loss on bond refunding was \$688,870.

On June 17, 2015, IBank issued \$90,070,000 in ISRF Program Bonds. A portion of the proceeds, \$39,285,137, was used to advance refund \$35,435,000 of outstanding 2008 ISRF Program Bonds. These proceeds were deposited in an irrevocable trust with an escrow agent to pay the future debt service on the refunded bonds. As a result, the 2008 ISRF Program Bonds are considered defeased and the liability for those bonds has been removed from the Statement of Net Position. The remaining proceeds were used to fund ISRF Program Loans that were made in anticipation of the issuance of the 2015 ISRF Program Bonds.

The reacquisition price (amount placed in escrow to repay the 2008 ISRF Program Bonds) exceeded the net carrying amount of those bonds by \$3,587,748. This loss on the bond refunding is reported as a deferred outflow of resources on the Statement of Net Position and will be amortized over the remaining life of the refunded bonds. As of June 30, 2016 the balance of the loss on bond refunding was \$3,198,895.

On June 14, 2016, IBank issued \$141,600,000 in ISRF Program Bonds to provide funds for the ISRF Program Loans.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

At June 30, 2016, the outstanding balance of the defeased 2008 ISRF Program Bonds was \$32,980,000. The bonds will be redeemed on their October 1, 2018 call date.

The principal and interest payments received during the fiscal year from the Series-Pledged Loans are paid to the respective Trustees in amounts and at times sufficient to make the semi-annual debt service payments on the ISRF Program Bonds as they become due through 2046. The total principal and interest remaining to be paid on the ISRF Program Bonds is \$532,282,154. For the year ended June 30, 2016, Series Pledged Loan repayments and reserve account earnings were \$42,811,349. The debt service payments on ISRF Program Bonds for the fiscal year was \$13,718,181, resulting in a bond debt coverage ratio for the fiscal year of 3.12 times.

The following is a summary of bonds payable at June 30, 2016:

Infrastructure State Revolving Fund Revenue Bonds, Series 2014A, issued \$95,960,000 bearing 2.00% to 5.00% interest payable semi-annually, final maturity October 1, 2043 (2014 ISRF Program Bonds)	\$ 89,805,000
Infrastructure State Revolving Fund Revenue Bonds, Series 2015A, issued \$90,070,000 bearing 1.00% to 5.00% interest payable semi-annually, final maturity October 1, 2043 (2015A ISRF Program Bonds)	87,590,000
Infrastructure State Revolving Fund Revenue Bonds, Series 2016A, issued \$141,600,000 bearing 2.00% to 5.00% interest payable semi-annually, final maturity October 1, 2036 (2016A ISRF Program Bonds)	141,600,000
Plus: Unamortized Net Premium	<u>53,575,634</u>

6. CONDUIT BOND INFORMATION AND DEBT OBLIGATIONS

IBank has served as the conduit bond issuer for many private, nonprofit and governmental entities. Conduit bonds are a limited obligation of IBank payable solely from the pledged revenues of the conduit borrower. As such, the balance of outstanding conduit bonds is not reflected in the financial statements due to the conduit bond borrower's repayment pledges for those bonds.

Conduit Bond information ¹:

• Fees earned from 7/1/15 thru 6/30/16:		
○ Application Fees	\$	18,000
○ Issuance Fees	\$	309,061
○ Annual Fees	\$	67,500
○ Other	\$	(1,762)
• Conduit Bond Support Operating Expenses	\$	872,313 ²
• Amount of conduit bonds authorized but unsold as of 6/30/16	\$	314,000,000
• Amount of conduit bond debt issued from 7/1/15-6/30/16	\$	916,542,000
• Amount of conduit bonds outstanding as of 6/30/16	\$	4.4 Billion ³
• Number of conduit bonds transactions outstanding as of 6/30/16		158

¹ This information is provided pursuant to Government Code section 5872(a).

² Conduit Bond Support Operating Expenses include expenses such as salaries and benefits, administrative services, rent, utilities, travel, training, equipment and external services.

³ Includes bonds issued by the former California Economic Development Financing Authority, which were assumed by IBank pursuant to Chapter 4, Statutes of 1998, bonds issued by the California Consumer Power and Conservation Financing Authority, which were assumed by IBank pursuant to Resolution 04-37 adopted by the IBank Board on September 28, 2004, and excludes conduit bonds that were issued by special purpose trusts created by IBank.

7. RETIREMENT PLAN

Plan Description

All of the employees of IBank participate in the California Public Employees' Retirement System (CalPERS), which is included in the State of California's (State) Comprehensive Annual Financial Report as a fiduciary component unit. CalPERS administers the Public Employees' Retirement Fund (PERF). PERF is an agent multiple-employer defined benefit retirement plan. Departments and agencies within the State, including the Funds, are in a cost-sharing arrangement in which all risks and costs are shared proportionately by participating State agencies. Since all State agencies and certain related organizations, including the Funds, are considered collectively to be a single employer for plan purposes, the actuarial present value of vested and non-vested accumulated plan benefits attributable to the IBank employees cannot be determined. The significant actuarial assumptions used to compute the actuarially determined State contribution requirements are the same as those used to compute the State pension benefit obligation as defined by CalPERS. CalPERS issues a publicly available financial report that includes financial statements and required supplementary information for this plan. This report is available online at www.calpers.ca.gov.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

The California Legislature passed and the Governor signed the “Public Employees’ Pension Reform Act of 2013” (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 2012. Benefit provisions and other requirements are established by State statute.

Benefits Provided

The benefits for the Plan are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five or ten years of credited service.

The Plans’ provisions and benefits in effect at June 30, 2016, are summarized as follows:

First Tier:

	<u>Prior to January 15, 2011</u>	<u>January 15, 2011 to December 31, 2012</u>	<u>On or after January 1, 2013</u>
Hire date			
Benefit formula	2% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50 to 67	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	1.1 to 2.5%	1.092 to 2.418%	1.0 to 2.5%

Second Tier:

	<u>Prior to January 1, 2013</u>	<u>On or after January 1, 2013</u>
Hire date		
Benefit formula	1.25% @ 65	1.25% @ 67
Benefit vesting schedule	10 years service	10 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	0.5 to 1.25%	0.65 to 1.25%

Contributions

Section 20814(c) of the California Public Employees Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS’ annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. IBank is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

For the measurement period ended June 30, 2015 (the measurement date), the employer's contribution rate is approximately 24.3% of annual payroll.

These rates reflect Section 20683.2, which mandates that certain employees must contribute more as of July 1, 2013. Furthermore, any reduction in employer contributions due to the increase in the employee contributions must be paid by the employer towards the unfunded liability. It is the responsibility of the employer to make necessary accounting adjustments to reflect the impact due to any Employer Paid Member Contributions or situations where members are paying a portion of the employer contribution. Contributions to the plan were \$472,733 for the fiscal year ended June 30, 2016.

Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2016, the Funds reported net pension liabilities for their proportionate share of the net pension liability of \$3,945,940.

The Funds' net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2015, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using standard update procedures. The Funds' proportion of the net pension liability was based on the State Controller's Office (SCO) projection for the Funds. The SCO identified a total of 29 entities that are reported in the State's CAFR which are proprietary funds (enterprise and internal service) and fiduciary funds (pension and other employee benefit trust funds), component units (discretely presented and fiduciary), and related organizations, that have State employees with pensionable compensation (covered payroll). The SCO calculated and provided these funds/organizations with their allocated pensionable compensation percentages by plan. The Funds' proportionate share of the net pension liability for the Plan as of June 30, 2015 and 2014 was 0.01397% and 0.01269%, respectively.

For the fiscal year ended June 30, 2016, the Funds' recognized pension expense of \$238,535. At June 30, 2016, the Funds' reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
IBank contributions subsequent to the measurement date	\$ 472,733	\$ -
Change in proportion	285,599	-
Difference between expected versus actual experience	72,065	-
Net difference between projected and actual earnings on pension plan investments	<u>-</u>	<u>(86,138)</u>
Total	<u>\$ 830,397</u>	<u>\$ (86,138)</u>

**CALIFORNIA INFRASTRUCTURE AND ECONOMIC DEVELOPMENT
BANK FUND AND CALIFORNIA INFRASTRUCTURE GUARANTEE
TRUST FUND, ENTERPRISE FUNDS OF THE CALIFORNIA
INFRASTRUCTURE AND ECONOMIC DEVELOPMENT BANK**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

The \$472,733 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Year Ended June 30</u>		
2017	\$	60,740
2018		60,740
2019		48,407
2020		101,639

Actuarial Assumptions

For the measurement period ended June 30, 2015 (the measurement date), the Total Pension Liability (TPL) was determined by rolling forward the June 30, 2014 TPL. The June 30, 2015 TPL was based on the following actuarial method and assumptions:

Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.65%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.65% Net of Pension Plan Investment Expenses, includes Inflation
Mortality Rate Table ⁽¹⁾	Derived using CalPERS' Membership data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

⁽¹⁾ The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report.

All other actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Change of Assumptions

GASB 68 states that the long-term expected rate of return should be determined net of pension plan investment expenses, but without reduction for pension plan administrative expense. The discount rate changed from 7.50% (net of administrative expenses in 2014) to 7.65% as of the June 30, 2015 measurement date to correct the adjustment, which previously reduced the discount rate for administrative expenses.

Discount Rate

The discount rate used to measure the TPL was 7.65% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65% discount rate is appropriate and the use of the municipal bond rate calculation is not necessary. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1 – 10^(a)</u>	<u>Real Return Years 11+^(b)</u>
Global Equity	51.00%	5.25%	5.71%
Global Debt Securities	19.00%	0.99%	2.43%
Inflation Sensitive	6.00%	0.45%	3.36%
Private Equity	10.00%	6.83%	6.95%
Real Estate	10.00%	4.50%	5.13%
Infrastructure and Forestland	2.00%	4.50%	5.09%
Liquidity	2.00%	-0.55%	-1.05%
Total	<u>100.00%</u>		

^(a) An expected inflation of 2.5% was used for this period.

^(b) An expected inflation of 3.0% was used for this period.

Sensitivity of the Funds' Proportionate Share Net Pension Liability to Changes in the Discount Rate

The following presents the Funds' proportionate share of the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.65 percent, as well as what the Funds' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65 percent) or 1 percentage-point higher (8.65 percent) than the current rate:

	<u>Discount Rate – 1% (6.65%)</u>	<u>Current Discount Rate (7.65%)</u>	<u>Discount Rate + 1% (8.65%)</u>
Funds' Proportionate Share of Plan's Net Pension Liability	\$ 5,573,100	\$ 3,945,940	\$ 2,580,753

8. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

The State also provides postemployment health care and dental benefits to its employees and their spouses and dependents, when applicable, through a substantive single-employer defined benefit plan to which the State contributes as an employer (State's Substantive Plan). The design of health and dental benefit plans can be amended by the CalPERS Board of Administration and the California Department of Human Resources, respectively. Employer and retiree contributions are established and may be amended by the Legislature. The employer contribution for health premiums maintains the average 100/90 percent contribution formula established in the Government Code. Under this formula, the State averages the premiums of the four largest health benefit plans in order to calculate the maximum amount the State will contribute toward the retiree's health benefits. The State also contributes 90 percent of this average for the health benefits of each of the retiree's dependents. Employees vest for this benefit after serving 10 years with the State. With 10 years of service credit, employees are entitled to 50 percent of the State's full contribution. This rate increases by 5% per year and with 20 years of service, the employee is entitled to the full 100/90 formula. IBank participates in the State's Substantive Plan on a cost sharing basis. IBank recognizes the costs of providing health and dental insurance to annuitants based on the required contribution, which is actuarially determined, and funded on a pay-as-you-go basis. The State Controller's Office obtains an annual actuarial valuation of the State's Substantive Plan which can be found on its website at www.sco.ca.gov.

A portion of the State's postemployment benefit costs have been allocated to the CIEDB Fund as follows:

Annual required contribution	\$	130,000
Interest on net OPEB obligation		22,000
Adjustment to annual required contribution		<u>(21,000)</u>
Annual OPEB cost (expense)		131,000
Contributions made		<u>(46,000)</u>
Increase in net OPEB obligation		85,000
Net OPEB obligation – beginning of year		<u>1,287,000</u>
Net OPEB obligation – end of year	\$	<u><u>1,372,000</u></u>

The annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the past three fiscal years, allocated to the CIEDB Fund, were as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/14	\$ 418,000	35%	\$ 1,218,000
6/30/15	\$ 111,000	39%	\$ 1,287,000
6/30/16	\$ 131,000	35%	\$ 1,372,000

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

Additional disclosure detail required by GASB Statement No. 45, regarding other postemployment benefits is presented in the State's Comprehensive Annual Financial Report for the year ended June 30, 2015, which is the latest available on the State Controller's Office website at www.sco.ca.gov.

9. COMMITMENTS

In June 2003, the Board approved a preliminary loan guarantee commitment for the Imperial Irrigation District (IID). The preliminary loan guarantee commitment established a conditional obligation to guarantee a future issuance of revenue bonds by IID (IID Bonds) for the purpose of financing a water supply project (IID Guarantee). During the 2003-2004 fiscal year, IBank transferred \$20 million from the CIEDB Fund to the Guarantee Trust Fund in conjunction with the preliminary loan guarantee commitment for the IID. In October 2010, the State Legislature enacted Senate Bill 856 (SB 856) that directed IBank to deposit a specified amount required for the IID Guarantee in a reserve account within the Guarantee Trust Fund. SB 856 further directed that this IID Guarantee amount be held for the benefit of bondholders of potential IID Bonds. At June 30, 2016, the required IID Guarantee amount was on deposit in a reserve account within the Guarantee Trust Fund, and no IID Guarantee or IID Bonds have been approved or issued.

As of June 30, 2016 the Board had conditionally approved four Loans totaling approximately \$59.5 million that did not yet have fully executed loan documentation. When IBank and the borrower execute the required loan documentation, IBank will be obligated to fund the Loan.

10. CONTINGENCIES

One borrower with a Loan pledged to the common pool of loans supporting the 2014 and 2015 ISRF Bonds declared a fiscal emergency on July 18, 2012, and filed a Chapter 9 bankruptcy petition on August 1, 2012. On August 28, 2013, the federal bankruptcy court judge ruled that the borrower was eligible for Chapter 9 bankruptcy protection. On May 29, 2015 the borrower filed a plan of adjustment with the bankruptcy court reflecting an intent to continue routine debt service payments to IBank. IBank filed a proof claim in bankruptcy court on June 17, 2015. As of June 30, 2016, the plan of adjustment was still under consideration before the bankruptcy court. The borrower made all scheduled Loan payments during the fiscal year and the subsequent payments due on August 1, 2016; the borrower's next scheduled Loan payments are due February 1, 2017.

¹ This schedule is condensed from its original format and combines the California Infrastructure and Economic Development Bank Fund and the California Infrastructure Guarantee Trust Fund.

² In fiscal year 2013-14 and 2015-16, Series 2014A and Series 2015A ISRF Program Bonds were issued in part to refund the Series 2004, Series 2005 and Series 2008 ISRF Program Bonds. These advance refundings resulted in a loss that is amortized over the life of the refunded bonds.

³ Beginning in fiscal year 2012-13, bond issuance costs were recognized as expense when incurred, loan origination fees were recognized as revenue when due, and beginning of the year net position was restated to include prior year unamortized balances.

⁴ Beginning in fiscal year 2014-15, GASB 68 required the recognition of the net pension liability and the related deferred outflows of resources, deferred inflows of resources, and pension expenses.

¹ This schedule combines the California Infrastructure and Economic Development Bank Fund and the California Infrastructure Guarantee Trust Fund.

² Beginning in fiscal year 2008-09, investment income was classified as nonoperating revenue.

³ Beginning in fiscal year 2012-13, bond issuance costs were recognized as expense when incurred and beginning of the year net position was reduced by the unamortized balance.

⁴ Restated in fiscal years 2012-13 and 2014-15.
